

## How to Complete & Turn in Psyc941 & Psyc942 Computational Homework

1. Download the assignment document
2. Download any applicable data sets
3. Open the "Green Things -- Homework Checker"
4. Complete the assignment, fill out the assignment document completely and enter answers into the checker
  - a. The answer is printed in green if your answer is correct
  - b. The response box is reprinted if your answer is wrong
- 5. Get all the answers right!!! → Get whatever help you need from me!!!**
- 6. Once you have all the answers right** (printed in green), take a screen shot of the page.
7. Include the screen shot as the first page of the completed assignment document
8. Be sure your name is in the upper right corner of the completed assignment document
9. Submit the completed assignment document using the Safe Assign link under the "Green Things – Homework Turn-in" Module on our CANVAS class page.
10. Thanks!!!
