

Where is the Checker for Homework #7 ???

Quick back story. We first wrote these about 25 years ago. One of the IT folx wrote the framework and set up the data structures, permissions, access structures, etc. I wrote the code for the pages and checking (and never did learn the “database admin stuff”. About 10 years ago I got together a couple dozen of the advisors and profs from the 15 different programs that send students to 941 & 942 and we did a “redesign” of the courses, giving the course structures we still use. That means some of the topics **and their homeworks** switched between 941 & 942. But, remember, I don’t know how to redo the database structures, and neither has any of the server Admins since... So, we have to “bounce around” a bit to get all the homeworks from both classes. here we go...

Start where you usually do

Quiz #3: The "Next Layer" of Designs & Analyses
