

How to Complete & Turn in Psyc942 Computational Homework

1. Download the Homework assignment document
2. Download any applicable data sets
3. Open the "Green Things -- Homework Checker"
4. Complete the assignment, fill out the assignment document completely and enter answers into the checker
 - a. The answer is printed in green if your answer is correct
 - b. The response box is reprinted empty if your answer is wrong
5. **Get all the answers right!!! → Get whatever help you need from me or others!!!**
6. **Once you have all the answers right** (printed in green), copy the page into the front of the Homework assignment document
7. Be sure your name is in the upper right corner of the completed assignment document
8. Submit the completed assignment document using the Safe Assign link under the "Green Things" link on the blackboard page
9. I'll review your work. If you did not receive at least a 9/10, I will contact you to redo the assignment
10. Thanks!!!

Please note: You must complete each and every Psyc942 homework assignment with at least 9/10 to get a passing grade for the course.
